

Hello and thank you for visiting the TLC website!

If you have recently joined TLC or are simply checking us out, welcome! My name is Mary Ann Aprahamian and I am available to you in our Member Services Division.

My journey with Drs. Dean and Jen and the chiropractic profession has been a constant rewarding experience for over 14 years. Beginning in their practice, I have been well educated on the endless benefits of chiropractic care. I have also been able to share this benefit with my family and children now away at school and getting adjusted by DC's in their area. Working here at TLC, I have the pleasure of working with wonderful chiropractors and their teams throughout the country and love watching you grow both personally and professionally.

Everything we do at TLC is done with the foremost thought of how we serve you best. As a member, you will learn quickly we do not ask you to do anything that we are not also doing in TLC Headquarters.

One of my greatest joys of working with Drs. Dean and Jen is that my role here is constantly evolving. I am always amazed at their ability to see the greatest strengths in an individual and help facilitate each person according to those strengths and realize their goals. Bringing this same facilitation to you is the goal of every coach and team member here at TLC.

We encourage you and your team to engage with us through all the many services available to you here at TLC. I looked forward to meeting you and having the opportunity to witness you achieve your goals and grow with the TLC Family.
