

TLC CE 2U: JOIN US JUNE 12-13, 2026 FOR CE's THE TLC WAY

The TLC CE Objective: To practice congruently, through growing our own health and wellbeing first before expecting our communities to continue to follow our leadership.

This essential weekend event will include a Friday Live-in-Practice Experience, a Friday evening Philosophy session, and 8 CE hrs on Saturday. TLC's CE curriculum has many relevant topics including:

Disc Health

The How-To's of proactively addressing and maintaining disc health in patients.

Community is Immunity

Community matters to our experience of health. Longevity comes from living connected to people. Integrate community in practices and see longevity increase

Compliance from the Start

Reframing compliance to not be a bad word is what this class is all about. Learn to utilize compliance to deliver realistic expectations.

Healthcare Outcomes

We can change the trajectory of our health care outcomes. One choice at a time living in a community connected to each other

Ergonomics

Gaining efficiency in using our body's mechanics to our advantage is the outcome we will achieve together.

Workplace Wellness

Help people learn to adapt their work environment to enhance not detract from their health.
